

GIHF-AI Conference

June 24-25, 2024

Berlin

Bringing together European and Israeli Health Experts focussing on Collaboration for Digitalization and AI in Medicine

Patron & Keynote Speaker
Prof. Dr. Karl Lauterbach, MP
German Federal Minister of Health

About

The **German Israeli Health Forum of Artificial Intelligence (GIHF-AI)** convenes experts to shape the future of healthcare in an **interactive conference** with participation options for everyone, fostering engagement, collaboration, and learning within the community. It focuses on **driving transformative changes in healthcare delivery and policy**. Participants can expect discussions on the **EU AI Act**, the **EHDS**, and advanced **AI technologies**, and develop **policy recommendations** together. The event provides a platform for networking, brainstorming, and co-creating solutions.
