

JOIN OUR DIGITAL HEALTH DELEGATION 2024 TO TEL AVIV

The collaboration between Germany and Israel has been remarkably fruitful, as **German Health Minister Lauterbach** noted at the GIHF-AI Conference 2024: "I remember sitting with Ran Balicer, drawing on a napkin what later became German law."

This delegation aims to build on this legacy, **fostering deeper connections** and **innovation partnerships**. As part of a high-ranking delegation from the German healthcare system – including policymakers, health experts, practitioners, and business representatives – participants will explore the vibrant Israeli ecosystem, exchange ideas, and **plan concrete collaboration projects with leaders of Israeli health institutions and governmental representatives**.

Delegates will also visit healthcare facilities, such as **Sheba Medical Center, Tel Aviv Sourasky Medical Center (Ichilov), Hadassah Medical Center, and Clalit Health Services**, and **engage in pre-organized workshops and one-on-one meetings** to dive deep into focus topics.
